

Foundations of Cancer Disease Sites Series

Breast Cancer

COURSE SYLLABUS (CDSM00BREASTODM22)

2022

Course Facilitators:

Donalda MacDonald, RN, CON(C)

Jennifer Wiernikowski, MN, NP-Adult, CON(C)

Course Format: eLearning

Contact Information:

Donalda MacDonald: Donalda.MacDonald@desouzainstitute.com

Jennifer Wiernikowski: Jennifer.Wiernikowski@desouzainstitute.com

Technical Support: support@desouzainstitute.com

Registration: Required

Prerequisite: *Cancer Care Basics*

Exclusion: *Foundations in Oncology Nursing Practice or Foundations of Cancer Disease Sites, Part D.*

A. COURSE DESCRIPTION

In Canada, breast cancer is the most commonly diagnosed cancer in women; it is also one of the most complex types of cancer. Today, breast cancer is thought of as a group of diseases, each with different characteristics, prognoses, and responses to therapies. This course will introduce you to breast cancer epidemiology, pathology, screening, diagnosis, and treatment, covering the foundational knowledge you need to provide nursing care to patients with breast cancer and their families. This online course will build on what you learned in *Foundations of Oncology Nursing Practice or Cancer Care Basics*.

This course consists of **three modules** in total. The first module, *Pathology and Epidemiology*, will cover the normal anatomy of the breast, the pathology of breast cancer, and the risk factors that put people at higher risk of breast cancer development. The second module, *Diagnosis and Staging* will cover screening guidelines, presenting symptoms, the diagnostic pathway, and staging. The third module, *Treatment & Survivorship*, covers the treatments available for each stage and pathological type of breast cancer as well as the post-treatment considerations. The **final quiz** consists of a case study where you will apply your knowledge to the care of a particular patient living with breast cancer.

Although you can complete the various components of the course at your own pace, the course must be completed within **6 weeks from the time you register** for the course (this date can be found on the course information page in *My Account*).

About the *Foundations of Cancer Disease Sites Series*

The *Foundations of Cancer Disease Sites Series* will consist of **over twenty cancer disease site courses** that you can select and combine to fit your clinical practice needs.

The first disease sites courses in the series are:

- Sarcoma
- Skin cancer
- Esophageal cancer
- Stomach cancer
- Pancreatic cancer
- Liver cancer
- Brain Cancer
- Lung Cancer
- Prostate Cancer
- Colorectal Cancer
- Hematological Malignancies (Multiple Myeloma, Lymphoma, and Leukemia)

We will continue to update and add cancer disease sites to the course series:

<https://www.desouzainstitute.com/cdsm>

B. de Souza DESIGNATION CREDITS

Domain of Practice Treatment and Delivery of Evidence Based Care

Learning Hours 3 hours

de Souza Credit *You must complete a **minimum of 3** foundations of disease sites courses to earn de Souza credits.*

3 disease sites = 0.125 credits

6 disease sites = 0.25 credits

9 disease sites = 0.325 credits

12 and over disease sites = 0.5 credits

C. COURSE OBJECTIVES

By the end of this course, you will be able to:

- Locate the gross anatomical features of the breast, and the major groups of lymph nodes that drain the breast
- Differentiate between the various histological types of breast cancer and define hormonal receptor status, HER2 status, and triple negative breast cancer.
- Describe the trends in breast cancer incidence and mortality within Canada.
- Identify the factors that put someone at higher risk of breast cancer development, including inherited genetic mutations.
- Explain the Canadian breast cancer screening guidelines for the general population.
- Recognize the presenting signs and symptoms of breast cancer.
- Describe the general diagnostic pathway for breast cancer.
- Explain the TNM staging system for breast cancer.
- List the factors considered when choosing breast conserving surgery vs. total mastectomy.
- Explain the goals of neoadjuvant and adjuvant systemic therapy in the treatment of breast cancer, as well as chemotherapy in the metastatic setting.
- Identify post-treatment considerations for the patient and family after surgery, radiation, and systemic therapy.

D. MODE OF LEARNING

The eLearning environment fosters a self-directed approach. You can progress through the modules and exercises at a convenient time, at home or work.

- **eLearning Modules:** Modules were developed by the de Souza education team to reflect the latest knowledge in breast cancer. The content is up-to-date and includes interactive application exercises and links to the latest clinical guidelines.
- **Study Guides:** A printable study guide is available for each module that you can print and fill in as you progress through the interactive course modules.

E. MODES OF EVALUATION

As part of the evaluation process, you are required to complete the following:

- **Participant Baseline Survey:** This survey assesses your knowledge, attitude, confidence before you begin the eLearning modules for the course.
- **eLearning modules:** You must complete all modules by course end date.
- **Final Quiz:** There is one case-study based quiz in this course consisting of 8 questions. You must answer 5/7 questions correctly (70%) to pass. **Note:** the quiz is open book and you have two attempts at the quiz to achieve a passing grade. You are required to complete the quiz independently.
- **Participant Post-course Evaluation:** At the end of the course, you will be required to complete a “Participant Post Survey” where you can provide your feedback on whether the content met your professional practice needs. These surveys are facilitated electronically through eLearning

When you have successfully met all the above requirements, you will receive **3 learning hours** as well as credit towards obtaining your de Souza designation. An email will be sent to you containing instructions on how to download your **certificate of completion** via your “My account”.

F. EXPECTATIONS FOR PARTICIPANTS

To be successful in completing this course, you are encouraged to set aside 1 to 2 hours each week to complete each section as learning is self-directed. The total learning hours for this course is **3 hours**.

A writable study guide is available to download and fill in if you wish. The study guide is not mandatory and completion of it is not included in the learning hours. If you do complete the study guide you will have a copy of the course content for your future reference; once you complete the course you will no longer have access to the course modules and resources.

There are a number of printable documents throughout the course, which you may want to save or print out.

Your course activity completion will be reflected in your **grade book**. You are expected to complete all modules and all other course requirements within **6 weeks** from the time you register for the course.

G. FACILITATOR AVAILABILITY

This course is **self-directed**. However, a course facilitator is available to:

- Answer your questions related to course content.
- Monitor the registration process.
- Be available to you for questions throughout the course.

You can expect the facilitator to respond to your questions within 24-hours during the week and within 48 hours on the weekend.

Your facilitators are:

- Donalda MacDonald: Donalda.MacDonald@desouzainstitute.com
- Jennifer Wiernikowski : Jennifer.Wiernikowski@desouzainstitute.com

Technical support is available by contacting support@desouzainstitute.com

H. COURSE AUTHORS' & FACILITATORS' BIOGRAPHY

Course Author & Facilitator

Donalda MacDonald, RN, CON(C)

Donalda has been an oncology nurse for 45 years working in both inpatient and outpatient units. She has been a primary nurse in lung and GI oncology as well as worked in the chemotherapy suite. For the last 10 years of her clinical career, she has been the solo instructor for the Sinai C.A.R.E. Cancer Care education series that she and her chemo colleagues developed targeting nurses new to oncology. Donalda has served on the board of directors for the Canadian Association of Nurses in Oncology for 7 years. Donalda holds certification in oncology from the CNA. She has done item writing and exam review for the CNA Oncology Certification Exam. Donalda was nominated by her oncology peers and was one of 100 nurses from across Canada to receive the CNA Centennial Award honoring her work in education of novice oncology nurses. In 2014 she received the Lifetime Achievement Award from the Canadian Association of Nurses in Oncology.

Course Co-Facilitator

Jennifer Wiernikowski, MN, NP-Adult, CON(C)

Jennifer Wiernikowski is a Nurse Practitioner in Hematology at the Juravinski Cancer Hospital in Hamilton Ontario. Her clinical work focuses on caring for patients and families facing hematological malignancies, autologous and allogeneic stem cell transplant. She is the past secretary of the Canadian Blood and Marrow Transplant Group (CBMTG), past President of the Canadian Association of Nurses in Oncology (CANO/ACIO) and previous Chief of Nursing Practice for the Juravinski Cancer Program. Jennifer has held a clinical cross appointment in the school of nursing at McMaster University. She is a previous Associate Member of the Department of Oncology, Michael G DeGroot School of Medicine at McMaster University. In 2019, Jennifer was the recipient of the Canadian Association of Nurses in Oncology (CANO/ACIO) Award of Distinction.

I. VIRTUAL LIBRARY

de Souza Institute has a virtual library that can be accessed to those registered in this course or any other de Souza Institute continuing education program. This resource enables you to access over 1500 e-Journals, 200 e-books and 8 on-line databases such as CINAHL or Ovid-Medline. You can use the virtual library to access the required reading materials for your course. The virtual library can be accessed 24 hours a day at any location that has internet access using a login and password.

The direct link is <https://library.desouzainstitute.com/login>.

J. TECHNICAL SUPPORT

eLearning Centre Orientation

The eLearning Centre Orientation is designed to introduce you to online learning and to help you understand how to navigate through the de Souza Institute eLearning centre and courses. It is strongly recommended that you complete this orientation so that you will be able to successfully navigate de Souza's eLearning environment.

de Souza Institute Support

If you have questions about the content of a course please email your course facilitator.

If you need assistance accessing or navigating the eLearning Centre, please refer to the eLearning Orientation course. If you have questions or have any general technical difficulties please contact support@desouzainstitute.com.

K. POLICIES AND PROCEDURES
